

Pro Series - Feeder/Dispenser Model ST-1250

Overview:

The ST-1250 is our most popular and versatile model. With our intelligent system controller incorporated into its stainless steel enclosure, the ST-1250 gives you the flexibility of using it in stand-alone applications as well as integrating into other systems. The ST-1250 is capable of handling a wide variety of products, from single sheets to thick magazines.

Applications:

- Collating
- Batch counting
- Accumulating
- Automatic wrapping
- Tip-on / affixing
- Kit fulfillment
- Package inserting

Features:

Minimal Adjustment Points

Advantages:

Three adjustment points for product change-over. Single knob adjustments.

Benefits:

Faster make-ready gets more jobs out the door. Skilled operators not needed for change-over.

Easy Remove Carriage

Carriage can be removed quickly and easily for belt changes.

Reduces down time for preventative maintenance.

Optional Vacuum Assist

Helps keep coated stock from slipping.

No struggling with coated or slick stocks.

Thick Product Capability

Feed product from .003" to 1.0".

More jobs can be run on the same machine.

I-Quipped Keypad/Display Control Interface

Ease of set up, operation, and monitoring of feeder.

Makes operator more productive in set up and operation of feeder.
