

## Specialty Applications U-Card Former

### Overview:

The U-Card Former is a specially modified version of our extended vacuum transport. Included are plow forming plates that shape u-cards as they are dispensed from the feeder. The vacuum belt provides control of the product to improve performance. The card can then be placed on a variety of conveyor streams for product placement and wrapping.

### Applications:

- Food packaging
- Paperboard cards
- Retail product packaging
- Microwaveable cards

### Specifications
