

Inserter Accessory Product Water Bottle

Overview:

The Water Bottle Assembly is designed to easily replace the stock water fountain assembly on Bell + Howell, Phillipsburg, and most Inscero Mailcrafters inserters. Advantages include more accurate water metering to envelope, larger capacity, easier cleanup, and positive water shutoff. Available in 4 and 24 volt AC models to fit most applications.

Features:

- Easy installation
- No modifications to inserter required
- Minimum maintenance and repair cost
- Accurately meters water supply
- Easy-to-see water level
- Corrosion-resistant
- Shatter-proof
- Positive solenoid valve shut-off eliminates leaks when inserter is stopped
